

Inspire. Empower. Heal.

Tanager School-Based Program

Tanager works with area school districts to make evidence-based treatment available to students struggling with mental and behavioral challenges. Involvement from teachers, staff, and parents gives students the best chance for success. Our programming offers onsite therapy as well as supports teachers and school officials with training, coaching, mentoring, and consultation and provides parent outreach to connect families with resources in their community.

Our Services

- Evaluation of your child's strengths and needs
- Individual, family, and group therapy
- Parent outreach and collaboration
- Behavioral Health Intervention Services (BHIS)
- Active linking to Tanager's full treatment options, supportive community programs, and resources
